Education

Indian Institute of Information Technology Kota

Bachelor of Technology in Computer Science and Engineering (CGPA: 7.41)

Kota, India

2023 – 2027

Experience

Unifindss

Product Management Intern

Nov 2025 – Jan 2026

Remote

- Led product initiatives for a campus ecosystem serving 2,000+ students, collaborating with engineering and design teams on feature development.
- Built **12+ reusable React components** and standardized UI workflows, improving scalability and maintainability.
- Analyzed **50+ user requests** and coordinated testing across **8+ release cycles**, enhancing product quality and navigation.

Projects

ReTrust+ | React, Vite, FastAPI, Node.js, MongoDB, Leaflet, JWT, Bcrypt

Live | GitHub

- Engineered a sustainability-driven retail platform promoting circular economy and e-waste optimization.
- Integrated ML-based product grading, smart inventory optimization, and eco-reward system for user engagement.
- Designed an interactive React frontend with dashboards showcasing sustainability metrics and reward tracking.

BlinkBoard | React.js, Vite, Context API, Syncfusion, Tailwind CSS

Live | GitHub

- Developed a real-time analytics dashboard for tracking enterprise revenue and customer insights.
- Implemented interactive charts, revenue tracking, and data visualization using Syncfusion components and Tailwind CSS.
- Built modular pages for orders, employees, and analytics with responsive layouts and role-based navigation.

BrandForage | React, Node.js, OpenAI API, Tailwind CSS, Framer Motion

Live | GitHub

- Developed a modern web platform enabling creators and small businesses to generate brand identities using AI-powered suggestions.
- Built a responsive and visually rich UI for logo previews, campaign mockups, and content curation workflows.
- Implemented modular React components with Tailwind CSS for scalability and performance optimization.

Technical Skills

Languages: C/C++, JavaScript, Python, Java, SQL, GraphQL, HTML/CSS

Frameworks: React.js, Express, Node.js, TensorFlow, Pandas, NumPy, Tailwind CSS, Bootstrap

Tools: MongoDB, PostgreSQL, MySQL, Git/GitHub, Docker, Postman, PowerBI, VS Code

Design/AI: Adobe Photoshop, Figma, Canva, Prompt Engineering (ChatGPT, Midjourney), Google Stitch, Claude, Agentic AI

Coursework: Data Structures, Algorithms, Operating Systems, OOPs, DBMS, Software Engineering, System Design

Achievements

- Winner - Hacksprint National Hackathon.**
- Achieved **CodeChef 2-Star Rating** (Max Rating: **1456**).
- Solved **400+ DSA problems** across coding platforms.
- Semifinalist - Sparkthon Walmart Hackathon.**

Certifications

Data Analytics Job Simulation | Quantum

Certificate

- Executed end-to-end data preparation and customer analytics to drive actionable business insights.
- Developed data-driven strategies using Python to optimize retail performance and category growth.

Data Analytics Job Simulation | Deloitte Australia

Certificate

- Applied forensic technology and data analysis to solve complex real-world business challenges.
- Synthesized large datasets to identify patterns and present findings for strategic decision-making.

Project Manager Job Simulation | Siemens Mobility

Certificate

- Focused on KPI development and dashboarding to streamline progress tracking and resource management.

Positions of Responsibility

Student Placement Coordinator | Tnp Cell — IIIT Kota

May 2026 – Present

- Coordinating company outreach, recruiter engagement, and internship opportunities for the 2027 batch.

Club Coordinator | Neon Cinematics — IIIT Kota

Apr 2025 – April 2026

- Leading creative workshops for 400+ students to improve technical filmmaking and engagement.

Junior IT Executive | TechKnow Society — IIIT Kota

Sept 2023 – Aug 2024

- Managed technical operations for a Tech Summit with over 800 attendees, overseeing digital promotions.
